It is widely used in manufacturing plants and utilities for the design and cost estimation of heat exchangers and heat recovery units in single and multi -cycle plants. For example, it is used for: 1. Design and cost estimation for new heat exchangers 2. 3. Design and modeling for existing heat exchangers 4. 3. 2. 5. HTRI is an acronym for Heat Transfer Research Institute. HTRI was founded in 1993 as a non-profit non -governmental organization in Dubai, United Arab Emirates. The HTRI has three key

tasks: 1. Computation 2. 3. Consultancy. HTRI has a recognized expertise in thermal design of industrial and commercial equipment. HTRI has also has a recognized expertise in engineering design of heat exchangers. Today HTRI has a large and diversified client base in the Middle East and internationally. HTRI's success has been due to its skilled staff, its advanced software and its emphasis on customer service. HTRI is a market leader in the middle east for providing engineering design and modelling services for energy efficiency, heat exchangers and boiler design. HTRI's software suites are used worldwide for

thermal design of industrial and commercial equipment. HTRI is known for it's skill, experience and dedication to excellence.

HTRI is known for an innovation with it's Xchanger Suite. Xchanger Suite is a software for the design and modeling of heat exchangers. It is widely used in manufacturing plants and utilities for the design and cost estimation of heat exchangers and heat

recovery units in single and multi -cycle plants. For example, it is used for: 1. Design and cost estimation for new heat exchangers 2. 3. Design and modeling for existing heat exchangers 4. 3. 2. 5. HTRI is an acronym for Heat Transfer Research

Institute. HTRI was founded in 1993 as a non -profit non -governmental organization in Dubai, United Arab Emirates. The HTRI has three key tasks: 1. Computation 2. 3. Consultancy. HTRI has a recognized expertise in thermal design of industrial and commercial equipment. HTRI has also has a recognized expertise in engineering design of heat exchangers. Today HTRI has a large and diversified client base in the Middle East and internationally. HTRI's success has been due to its skilled staff, its advanced software and its emphasis on customer service. HTRI is a market leader in the middle east for 82157476af
